

Welcome

Thank you for trusting Avena Integrative Medical Center, LLC with your wholistic health care needs. We take our commitment to you and your family very seriously. We look forward to establishing a partnership that will enhance your health and well-being.

We value your time, and realize that office visits may be an interruption in an otherwise very busy schedule. For this reason, we've taken steps to assure that your time in our clinic is as focused and efficient as possible.

Enclosed you will find new patient information forms. Before you schedule an initial appointment, please read and complete the attached forms. These forms are our first introduction to you, as a patient. Your detailed and thoughtful responses will help us to utilize our time in the clinic more effectively.

Your first visit will be a thorough assessment of your health and may last up to an hour or more. Our fees vary based on the time and complexity of your case. If your visit is not covered by your insurance provider, payment is expected at the time of your visit. For your convenience we accept cash, check, debit cards, Visa, MasterCard American Express and Discover. Our fee schedule can be found in this registration packet for you to reference.

If you are unable to keep your scheduled appointment time, please let us know as soon as possible so that we may allow another patient to have your appointment time. We will be glad to reschedule your visit. When scheduling your first appointment, a **\$100.00 deposit will be collected to hold your appointment time.** This deposit will be applied to your first visit and if your copay is less than the deposit, the remainder will be immediately refunded using the original form of payment. If you need to cancel your appointment for any reason, it must be done at least 2 business days prior your scheduled appointment and will result in a full, immediate refund of your deposit. If you DO NOT cancel within the **2 business days** prior your appointment, you will forfeit the deposit. For follow ups and lab reviews, we require a 24 hour notice for cancellation as a courtesy. Our policy is to charge \$50.00 for those missed appointments without appropriate notice. We thank you in advance for your consideration and acceptance of our cancellation policy.

Please remember to bring in copies of any recent lab work or medical records as well as a list of the supplements or medications you are currently taking.

We look forward to seeing you in the clinic. Our goal is to become a trusted partner to you and your family in your health care needs.

Sincerely,

Avena Integrative Medical Center LLC

Informed Consent Regarding Nutritional and Herbal Supplements

According to the Federal Food, Drug, and Cosmetic Act, as amended, Section 201(g)(1), the term drug is defined as an “article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease.” Technically, vitamins, minerals, trace elements, amino acids, herbs, or homeopathic remedies are not classified as drugs. However, these substances can have significant effects on physiology and must be used rationally. In this office, we provide nutritional counseling and make individualized recommendations regarding use of these substances in order to upgrade the quality of foods in a patient’s diet and to supply nutrition to support the physiological and biomechanical processes of the human body. Although these products may also be suggested with a specific therapeutic purpose in mind, their use is chiefly designed to support given aspects of metabolic function. Use of nutritional supplements may be safely recommended for patients already using pharmaceutical medications (drugs), but some potentially harmful interactions may occur. For this reason, it is important to keep all of your healthcare providers fully informed about all medications and nutritional supplements, herbs, or hormones you may be taking.

Sale of Nutritional Supplements at Avena Integrative Medical Center

As a service to you, we make nutritional supplements available in our office. We purchase these products only from manufacturers who have gained our confidence through considerable research and experience. We determine quality by considering: (1) the quality of science behind the product; (2) the quality of the ingredients themselves; (3) the quality of the manufacturing process; and (4) the synergism among product components. The brands of supplements that we carry in our center are those that meet our high standards and tend to produce predictable results.

While these supplements may come at a higher financial cost than those found on the shelves of pharmacies or health food stores, the value must also include assurance of their purity, quality, bioavailability (ability to be properly absorbed and utilized by the body), and effectiveness. The chief reason we make these products available is to ensure quality. You are not guaranteed the same level of quality when you purchase your supplements from the general marketplace. We are not suggesting that such products have no value; however, given the lack of stringent testing requirements for dietary supplements, product quality varies widely.

If you have concerns about this issue, please discuss them with our staff.

I, _____,

have read and understand the above statement on _____ (date)

You are under no obligation to purchase nutritional supplements at our center.

Blood Work Laboratory Options

Everyone's insurance plan is different. Whether your plan doesn't cover certain tests or you have a high deductible, that doesn't mean you are stuck paying astronomical amounts for bloodwork. There are several options for you to get the blood work you need for a reasonable rate. Below are several options to consider.

Options:

1. Going Through Insurance:

- Choose a lab draw facility in network. Sometimes your insurance will only cover blood work if it is done at a facility in network with your plan. This means even if your insurance doesn't cover office visits at Avena, we are still able to write a lab slip for you to take to a blood draw facility that is considered in network with your insurance. If you are unsure which labs are in network, it is best to call the number on your insurance card and inquire which lab companies are in your network.
- Check beforehand which test codes are covered. Some insurance plans are very specific about which tests are fully covered, partially covered, and not covered at all. If you are unsure which tests your insurance covers, it is best to check with them before having the blood work done and getting a surprising bill on the other side. The best way to know is to call your insurance company with the CPT codes and check to see if all the tests are covered and, if not, what the cost will be.
- Meeting your deductible. If your insurance plan requires you to meet a deductible (a set out-of-pocket cost) before they will cover testing, you will want to contact them to find out what amount you are responsible for and what month your deductible resets each year.

2. Utilize a Self-Pay Lab:

These are labs that are dedicated to providing transparent billing and testing. Self-pay labs offer reduced pricing because they do not go through insurance. If you are having your blood drawn at Avena, we work with several self-pay labs that you can use rather than running blood work through your insurance. If you choose this option, you will know the cost of your blood work up front and pay for it on the day you get your blood drawn. Remember though that if you use a self-pay lab, it does not get run through insurance at all and it will not count towards meeting your deductible. Unless you already know your insurance won't cover blood work, we recommend calling them with the test codes first to be able to compare which is a more cost effective option for you.

3. Finding a Custom Combo:

Sometimes, insurance will cover a majority of tests but not all. In this case, it might make sense to use a combination of insurance and self-pay testing. If you inform us what tests your insurance will not cover, we can price out just those tests with one of the self-pay lab options. This means you will be able to get all the blood work done and only pay for the tests insurance will not cover. A great example of this is vitamin D testing. Labs will charge the insurance between \$150 - \$300 for a vitamin D test which the patient is responsible for if not covered under your plan. If you go through a self-pay lab, a vitamin D test costs \$25.

If you are interested in utilizing self-pay labs or have more questions, please let us know. We are happy to walk you through the options and pick one that is the most cost effective for you and your family. To know ahead of time what your insurance will cover, it is best to call them and ask what your lab coverage is and if you have a separate deductible for it.
